

CASE HISTORY:- Highway 889. Eiterfjord. Finnmark. Norway

MAIN CONTRACTOR: Destia AS
CONTRACTORS SUPPLIER: Enreco AS
GABION MANUFACTURER: Hy-Ten Gabion Solutions

A new road link along the shore of Eiterfjord has been built with long sections of gabion walls adjacent to the road to prevent snow avalanches from blocking the road.

The gabions supplied by Hy-Ten are manufactured from aluzinc coated welded mesh in 4mm diameter wire with mesh apertures of 50mm x 50mm nominal size.

The gabions are all of one size (2m x 1m x 1m) and they are filled with stone from the site.

If you would like Hy-Ten to design and supply gabions and land reinforcement products for you, please contact Steve Lisle or Greer Charlton on **01902 712200**.
