CASE HISTORY:- New design studio, Aston Martin, Gaydon.

CONTRACTOR Greenhill Construction Ltd.

GABION WALL DESIGN & SUPPLY Hy-Ten Gabion Solutions

In October 2007 Hy-Ten Gabion Solutions were instructed to design and supply a free standing gabion screen wall for Aston Martin at Gaydon in Warwickshire.

The purpose of the wall was to provide a privacy screen around the newly constructed Design Studio garden. The gabion screen wall has been filled with stone from the same quarry as the stone cladding on the Headquarters building and the garden provides a very attractive area for new designs to be viewed in natural daylight.

Hy-Ten supplied units manufactured from 76.2mm x 76.2mm x 5mm Triple Life Coated welded mesh. This heavy specification was chosen because the wall was 4m high in some places and a high quality appearance was required by the client.

If you would like Hy-Ten to design and supply gabions and land reinforcement products for you, please contact Steve Lisle or Greer Charlton on **01902 712200**.
